SUBJECT INDEX

Acetylacetone–alcohol mixtures
Thermodynamics of tautomeric solutions: vapour–liquid equilibrium for acetylacetone–alcohol mixtures, 219
Acid phthalic esters
Thermal and mass spectral fragmentation studies of some acid phthalic esters, 337
Amine curing agents
Studies on curing kinetics and thermal stability of epoxy resin *N,N,N′,N′*-tetraglycidyl-1,1-bis[(4-amino-3-methyl)phenyl]cyclohexane using various amine curing agents, 319
Aromatic hydrocarbons
Excess volumes of mixing and excess enthalpies of mixing of *n*-butyl chloride with aromatic hydrocarbons at 298.15 K, 57
Arrhenius parameter
The influence of errors of Arrhenius parameter calculation on the exactness of the solution of the direct kinetic problem, 133

B_4C
Selective growth of boron carbide B_4C by reactive CVD. Study of the system BCl_3–H_2–C(graphite), (in French), 253
BCl_3–H_2–C(graphite)
Selective growth of boron carbide B_4C by reactive CVD. Study of the system BCl_3–H_2–C(graphite), (in French), 253
Benzene-1,4-dioxyacetates
Thermal decomposition of yttrium and lanthanide benzene-1,4-dioxyacetates in air atmosphere, 293
n-Butyl chloride
Excess volumes of mixing and excess enthalpies of mixing of *n*-butyl chloride with aromatic hydrocarbons at 298.15 K, 57

Calcites
Decarbonation and recarbonation of calcites heated in CO_2. Part 1. Effect of the thermal regime, 77
$Cd(OH)_2$
Controlled decomposition rate thermal analysis of $Mg(OH)_2$ and $Cd(OH)_2$. Kinetic study, 47
CDRTA
Controlled decomposition rate thermal analysis of $Mg(OH)_2$ and $Cd(OH)_2$. Kinetic study, 47
Copper(II) sulphates
Thermogravimetry of basic copper(II) sulphates obtained by titrating NaOH solution with $CuSO_4$ solution, 281
Coprecipitated oxalates
Investigation of the formation of nickel–zinc ferrite from coprecipitated oxalates, 39
Cu–Zn–Al single crystal
The Gibbs free energies of thermal and stress-induced martensite formation in Cu–Zn–Al single crystal shape-memory alloys, 193
$CuSO_4$ solution
Thermogravimetry of basic copper(II) sulphates obtained by titrating NaOH solution with $CuSO_4$ solution, 281
CVD
Selective growth of boron carbide B_4C by reactive CVD. Study of the system BCl_3–H_2–C(graphite), (in French), 253

Decarbonation
Decarbonation and recarbonation of calcites heated in CO_2. Part 1. Effect of the thermal regime, 77
Diamine complexes
Thermally induced configurational and conformational changes of diamine complexes of nickel(II) trifluoromethanesulphonate, 243
Dibromotetrakis(4-vinylpyridine)
Thermal and electrical studies of dibromotetrakis(4-vinylpyridine)cobalt(II), 187
Differential method
A differential method for kinetics of non-isothermal solid decomposition, 235
Differential thermal gravimetry
Temperature-programmed oxidative decomposition (TPOD) technique for the characterisation of supported metal clusters: a comparison with differential thermal gravimetry (DTG) technique, 273

Direct kinetic problem
The influence of errors of Arrhenius parameter calculation on the exactness of the solution of the direct kinetic problem, 133
Direct orange complexes
Electrical behaviour of some direct orange complexes, 181
Dynamic mechanical analysis
Characterization of ethylene–propylene–diene monomer (EPDM) roofing membranes using thermogravimetry and dynamic mechanical analysis, 303

Epoxy resin *N,N,N′,N′*-tetraglycidyl-1,1-bis[(4-amino-3-methyl)phenyl]cyclohexane
Studies on curing kinetics and thermal stability of epoxy resin *N,N,N′,N′*-tetraglycidyl-1,1-bis[(4-amino-3-methyl)phenyl]cyclohexane using various amine curing agents, 319
Ethylene–propylene–diene monomer (EPDM)
Characterization of ethylene–propylene–diene monomer (EPDM) roofing membranes using thermogravimetry and dynamic mechanical analysis, 303
Exponential rate constant
Kinetic compensation effect as a mathematical consequence of the exponential rate constant, 201

Fulvic acid
Thermal behaviour of fulvic and humic acids in comparison with a maleic anhydride oligomer, 1

Gibbs free energies
The Gibbs free energies of thermal and stress-induced martensite formation in Cu–Zn–Al single crystal shape-memory alloys, 193

HF–ClF
HF–ClF(g) molecular complex: two limiting approaches to its thermodynamics, 67
Humic acid
Thermal behaviour of fulvic and humic acids in comparison with a maleic anhydride oligomer, 1
n-Hydrocarbons
Critical evaluation of solubility data in binary systems formed by methanol with *n*-hydrocarbons, 123

Isoorotate monoanions
Thermal behaviour of metal complexes with isoorotate and 2-thioisoorotate monoanions, 9

Kinetic compensation effect
Kinetic compensation effect as a mathematical consequence of the exponential rate constant, 201

Lanthanide
Thermal decomposition of yttrium and lanthanide benzene-1,4-dioxyacetates in air atmosphere, 293
Lanthanide malonates
Systematics on the thermal reactions of lanthanide malonates $Ln_2(C_3H_2O_4)_3 \cdot nH_2O$ in the solid state, 209
Lithium nitrate–potassium nitrate eutectic
Molten lithium nitrate–potassium nitrate eutectic: the reactions of aluminium, gallium and thallium, 107
$Ln_2(C_3H_2O_4)_3 \cdot nH_2O$
Systematics on the thermal reactions of lanthanide malonates $Ln_2(C_3H_2O_4)_3 \cdot nH_2O$ in the solid state, 209

Magnesium cations
The conformational changes of 5SrRNA of plant origin in presence of magnesium cations by adiabatic scanning differential calorimetry, 143
Magnesium salts
The conformational changes of 5SrRNA of plant origin in presence of anions PO_4^{-3}, NO_3, ClO_4^-, Cl^-, of tetraprotonated spermine and magnesium salts by adiabatic scanning differential calorimetry, 165
Magneto-electrical studies
Magneto-electrical studies of *p*-nitrophenol, 175
Maleic anhydride oligomer
Thermal behaviour of fulvic and humic acids in comparison with a maleic anhydride oligomer, 1
Martensite formation
The Gibbs free energies of thermal and stress-induced martensite formation in Cu–Zn–Al single crystal shape-memory alloys, 193
Mass spectral fragmentation studies
Thermal and mass spectral fragmentation studies of some acid phthalic esters, 337
N-Methyl-substituted salicylideneaminates
Thermal properties of nickel(II) and copper(II) complexes with *N*-methyl-substituted salicylideneaminates, 21

$Mg(OH)_2$
Controlled decomposition rate thermal analysis of $Mg(OH)_2$ and $Cd(OH)_2$. Kinetic study, 47

NaOH solution
Thermogravimetry of basic copper(II) sulphates obtained by titrating NaOH solution with $CuSO_4$ solution, 281
Nickel(II) trifluoromethanesulphonate
Thermally induced configurational and conformational changes of diamine complexes of nickel(II) trifluoromethanesulphonate, 243
Nickel–zinc ferrite
Investigation of the formation of nickel–zinc ferrite from coprecipitated oxalates, 39
p-Nitrophenol
Magneto-electrical studies of *p*-nitrophenol, 175
Non-isothermal solid decomposition
A differential method for kinetics of non-isothermal solid decomposition, 235

Pentanedione-1-(2-chlorophenylhydrazone)
Determination of thermodynamic parameters and stability constants of complexes of various dipositively charged metal ions with 2,4-pentanedione-1-(2-chlorophenylhydrazone) PD2CPH using a potentiometric technique, 329
Potentiometric technique
Determination of thermodynamic parameters and stability constants of complexes of various dipositively charged metal ions with 2,4-pentanedione-1-(2-chlorophenylhydrazone) PD2CPH using a potentiometric technique, 329

Recarbonation
Decarbonation and recarbonation of calcites heated in CO_2. Part 1. Effect of the thermal regime, 77

Salicylideneaminates
Thermal properties of nickel(II) and copper(II) complexes with *N*-methyl-substituted salicylideneaminates, 21
Solubility data
Critical evaluation of solubility data in binary systems formed by methanol with *n*-hydrocarbons, 123
Spermidinium cations
The conformational changes of 5SrRNA of plant origin in presence of sperminium and spermidinium cations by adiabatic scanning differential calorimetry, 153
Sperminium
The conformational changes of 5SrRNA of plant origin in presence of sperminium and spermidinium cations by adiabatic scanning differential calorimetry, 153
5SrRNA
The conformational changes of 5SrRNA of plant origin in presence of magnesium cations by adiabatic scanning differential calorimetry, 143
The conformational changes of 5SrRNA of plant origin in presence of sperminium and spermidinium cations by adiabatic scanning differential calorimetry, 153
The conformational changes of 5SrRNA of plant origin in presence of anions PO_4^{-3}, NO_3, ClO_4^-, Cl^-, of tetraprotonated spermine and magnesium salts by adiabatic scanning differential calorimetry, 165

Tautomeric solutions
Thermodynamics of tautomeric solutions: vapour–liquid equilibrium for acetylacetone–alcohol mixtures, 219
Temperature-programmed oxidative decomposition
Temperature-programmed oxidative decomposition (TPOD) technique for the characterisation of supported metal clusters: a comparison with differential thermal gravimetry (DTG) technique, 273
Ternary system
The liquid ternary system ZrF_4–BaF_2–MF: calorimetric determination of excess enthalpy. Part I. M = Na, (in French), 91
Tetra-protonated spermine
The conformational changes of 5SrRNA of plant origin in presence of anions PO_4^{-3}, NO_3, ClO_4^-, Cl^-, of tetraprotonated spermine and magnesium salts by adiabatic scanning differential calorimetry, 165
Thermodynamic parameters
Determination of thermodynamic parameters and stability constants of complexes of various dipositively charged metal ions with 2,4-pentanedione-1-(2-chlorophenylhydrazone) PD2CPH using a potentiometric technique, 329
Thermodynamics
HF–ClF(g) molecular complex: two limiting approaches to its thermodynamics, 67

Thermogravimetric analysis
Thermal and mass spectral fragmentation studies of some acid phthalic esters, 337
Thermogravimetry
Characterization of ethylene–propylene–diene monomer (EPDM) roofing membranes using thermogravimetry and dynamic mechanical analysis, 303
2-Thioisoorotate monoanions
Thermal behaviour of metal complexes with isoorotate and 2-thioisoorotate monoanions, 9

UNIFAC
Prediction of vapor–liquid equilibria and enthalpy of mixing by means of UNIFAC models, 29

Vapor–liquid equilibria
Prediction of vapor–liquid equilibria and enthalpy of mixing by means of UNIFAC models, 29
Thermodynamics of tautomeric solutions: vapour–liquid equilibrium for acetylacetone–alcohol mixtures, 219

Yttrium
Thermal decomposition of yttrium and lanthanide benzene-1,4-dioxyacetates in air atmosphere, 293

ZrF_4–BaF_2–MF
The liquid ternary system ZrF_4–BaF_2–MF: calorimetric determination of excess enthalpy. Part I. M = Na, (in French), 91
